

Third international workshop on interim PET in lymphoma

Menton (France), September 25-27th,2011

Organization Committee

M.Meignan (France), A.Gallamini (Italy), C.Haioun (France)

1) Web site: <http://eitti.free.fr>

The screenshot shows a web browser window with the address bar displaying <http://eitti.free.fr/>. The browser's address bar also shows "Most Visited", "Hotmail", "Windows Media", "Windows", "Personnaliser les liens", and "fref.fcgi". The browser's search engine is set to Google.

The website's header features the Menton logo on the left, which includes a sun and the text "Menton MA VILLE EST UN JARDIN". To the right of the logo, the text "International Working Group on Interim PET in Lymphoma" is displayed in red.

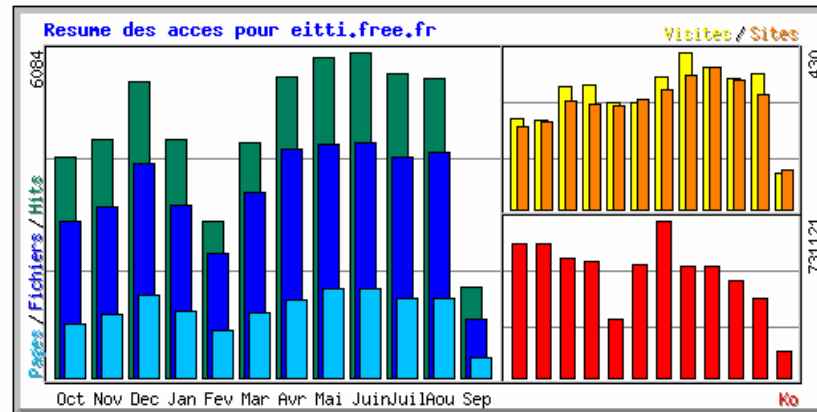

Below the header, there is a navigation menu with four tabs: "Expert session (Apr 8th)", "Plenary session (Apr 9th)", "List of participants", and "Other information".

The main content area is titled "2nd International Workshop on Interim PET in Lymphoma" in blue text. Below the title, the location and date are specified: "Menton (France), Palais de l'Europe, April 8-9th, 2010". The text "Under the auspices of GELA, IIL, EORTC, SFMN, EHA, EANM" is displayed in blue. Below this, the "Organization Committee" is listed, including "M. Meignan (France), A. Gallamini (Italy), C. Haioun (France)".

On the left side of the page, there is a vertical sidebar with three images and their corresponding years: "Deauville 2009", "Menton 2010", and "Menton 2011".

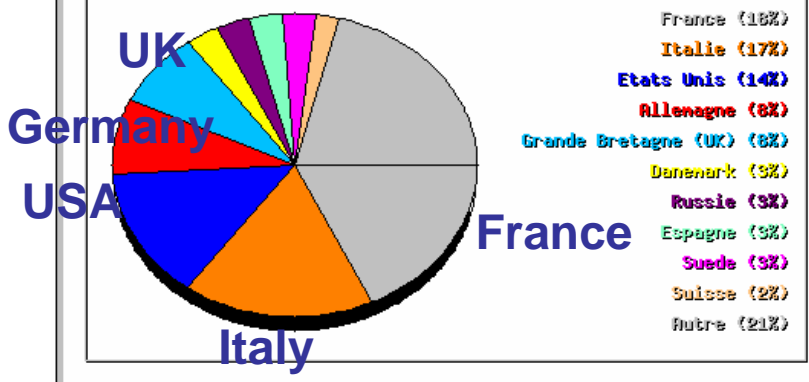

At the bottom of the page, a footer contains the text: "Site design and maintenance: Emmanuel Itti - Last updated: November 2010".

2 IVS Deauville criteria in HL and NHL completed

- Web exchange network
- PET uploaded into the IVS platform
- Independent readers reporting with the same software (Imagys.com)
- IVS HL has included 262 patients
- IVS NHL has included 120 patients

PET uploaded in the platform

The screenshot displays the IMAGYS web application interface within a Microsoft Internet Explorer browser window. The browser's address bar shows the URL <https://demo.imagys.com/imagys/content/home>. The application header includes the IMAGYS logo and navigation tabs for 'Investigator', 'Reader', and 'Profile'. A sidebar on the left lists a 'Demo' section with a 'Filter' set to 'default', followed by a list of patient identifiers from GELA_001 to GELA_029. The main content area features a box with the text 'Select a patient in the tree' and a small icon of a person. The browser's status bar at the bottom shows 'Applet KUploadNotifier started' and the system tray includes the 'démarrer' button, taskbar icons, and the time '13:51'.

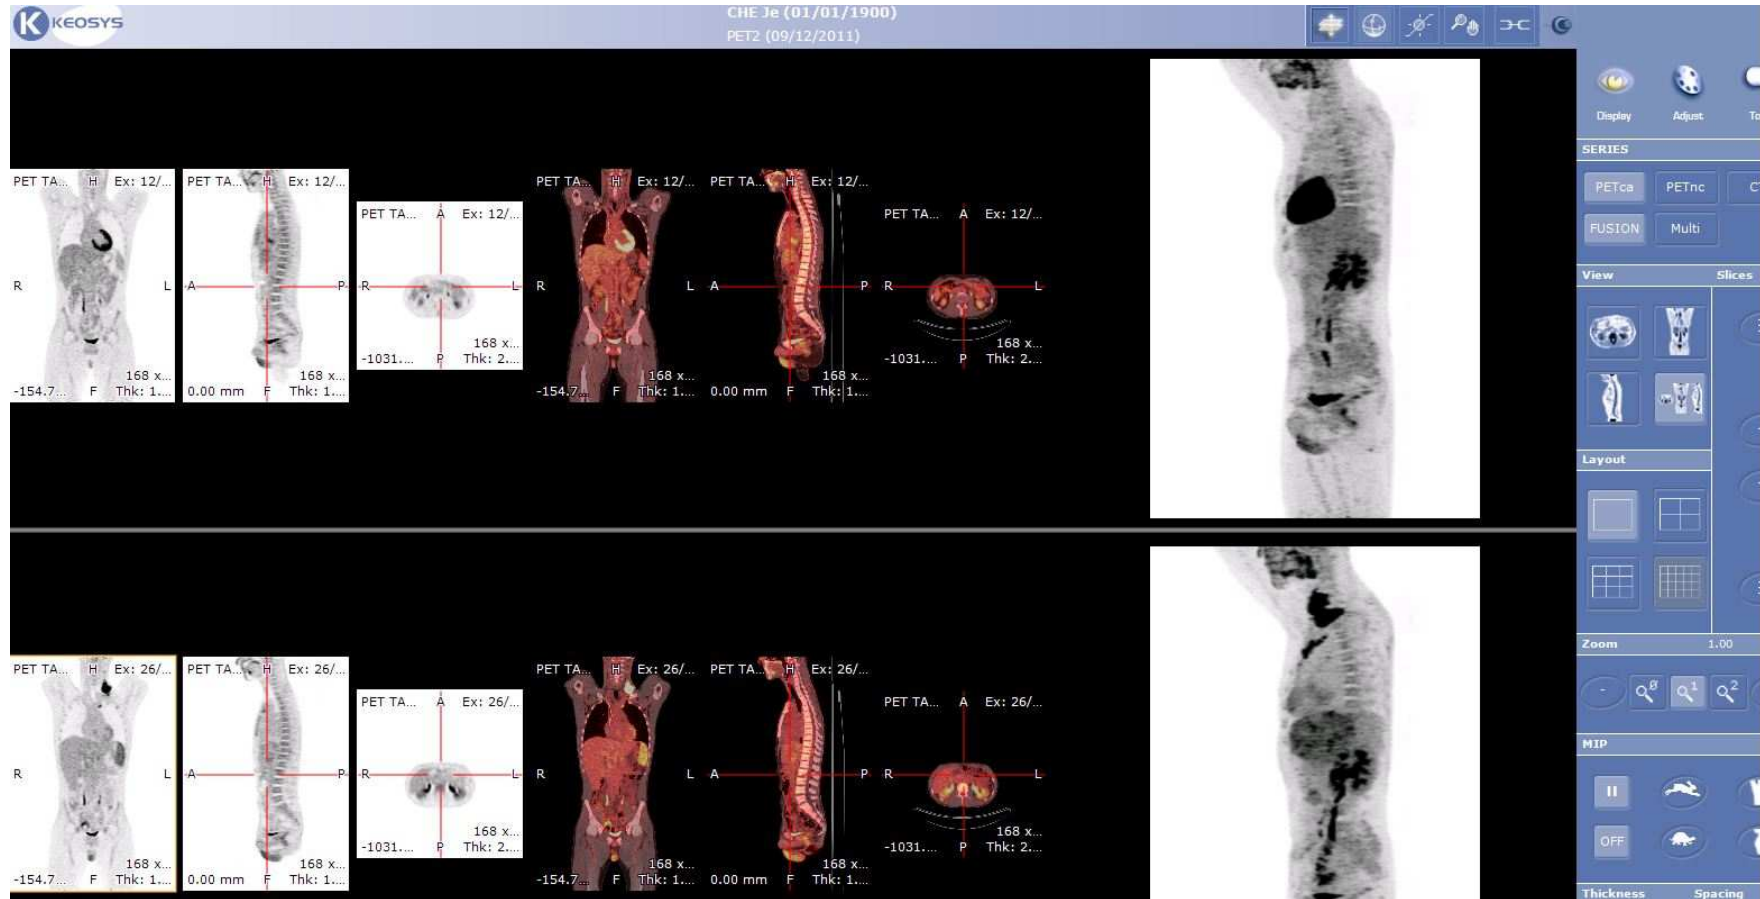

Diagram illustrating the upload process:

- Investigators** (represented by a laptop icon) send data to the **Imagys Server** (represented by server rack icons).
- The process is labeled **Upload DICOM exams**.
- Key features of the upload are listed:
 - Secured Upload
 - HTTPS
 - Asynchronous

The **Imagys Server** is connected to the **IMAGYS** platform, which is running on a **Demon: Gela** environment.

A.Cashen, St. Louis MO

PET0 and PET2 displayed on the same screen

Aim of the present meeting

- 1. Present the research ongoing in the field of interim PET and some new development in imaging of lymphoma**
- 2. Push forward the cooperation between hematologists and nuclear medicine physicians**
- 3. Reach a consensus on interim PET reporting**
