

8th international workshop on PET in lymphoma and myeloma (PILM 2020)

Menton, France, September 13-15, 2020

Preliminary Program:

Sunday September 13th: Meeting of the Expert committee (closed session)

Monday September 14th: Plenary

7.30: Poster set-up.

8.00- 8.15: Openings: G Salles (LYSA) and F.Merli (FIL)

A.Gallamini (France), M.Meignan (France), C.Haioun(France), L.Rigacci (Italy), C. Thieblemont (France)

8.15-9.15: PET Imaging criteria in Myeloma (presentation of expert panel discussion):

Chair: F Merli (Italy), C Kobe (Germany)

E.Zamagni (Italy), C. Bodet-Milin (France) C.Nanni (Italy), E Terpos (Greece)

9.15-10.00: PET and MRD in MM

Chair: S Luminari (Italy), C.Haioun (France)

Ph. Moreau (France), J San Miguel (Spain), A Versari (Italy), F. Bodere (France).

10.00-10.30: Coffee break

10.30-12.30: The International Project of Metabolic Tumor Volume Harmonization

Chair: S Barrington (UK), M Meignan (France), A Gallamini (France).

Discussants (specific presentation to be defined): I.Buvat (France), R.Boellaard (Netherlands), S.Chauvie (Italy), G Mikhaeel (UK), O Casasnovas (France), AS Cottereau (France), A Berriolo (France), C Schmitz (Germany), C Kobe (Germany) T El Galaly (Denmark), A Moskowitz (US), H.Schoder (US) A ;Versari (Italy), L Guerra (Italy), S Luminari (Italy), L Rigacci (Italy), L Ceriani (Switzerland), E Zucca (Switzerland)

12.30-13.00 Poster walking

13.00-14.00: Lunch

14.00- 16.00: CAR T-cell: What is expected from PET imaging?

Chair: S Schuster (US), C Thieblemont (France)

Discussants (specific presentation to be defined): S. Schuster (US), C Thieblemont (France), F. Merli (Italy), I Buvat (France), AS.Cottereau (France), H Schoder (USA), L Vercellino (France), A Moskowitz (USA), , K Hermann (Germany), A Alizadeh (USA)

15.30-16.00 Coffee break

16.00-17.00: A. Alizadeh (USA): TMTV and ct DNA in Hodgkin lymphoma.

Chair: D.Rossi (Italy), AS Cottereau (France)

Tuesday 15th 2020: Plenary

08.00- 9.30: How to define new prognostic indices including baseline PET parameters?

Chair: L Sehn (CND), Andre (Belgium), E Zucca (Switzerland)

Discussants (specific presentation to be defined): L Ceriani (Switzerland), C Thieblemont (France), AS Cottereau (France), M Federico (Italy), Gallamini (France), A Lister (UK)

9.30 10.00: Coffee break

10.00-12.00: Poster discussion: U. Duhrsen (Germany), T. Vander Borcht (Belgium)

Best Poster Award in memory of Alberto Biggi

Oral presentations of selected posters

12 00 13.00: Is Artificial Intelligence helpful (MV measurement and risk identification)

Chair: I. Buvat (France), T. El-Galaly (Denmark)

Discussant (specific presentation to be defined): N. Capobianco (Italy), N (DK), C. Rossi (France)

13.00-14.00: Lunch

14.00-15.00: **The new challenges for Deauville criteria**

Chair: B. Cheson (USA), E Lopci (Italy)

Discussants (specific presentation to be defined): O Casasnovas (France), C. Bodet-Milin (France), H Schoder (USA), U Duhrsen (Germany)

15.00- 16.00: **Results of ongoing PET guided trials in lymphoma:**

Chair: J Zaucha (Poland), L Rigacci (Italy)

16.00-16.30: **B Cheson (USA): PET in lymphoma during the last 10 years.**

Perspectives from the meeting

Chair: M Federico (Italy), H Tilly (France)

17.00: Closing
