September 17-18th, 2027
Palais de l'Europe
Menton, France

11th
INTERNATIONAL
workshop on PET

In Lymphoma
and Myeloma

Conference

Essentials

Address: Palais de l'Europe,
8 avenue Boyer, 06500 Menton, France

Registration: www.lymphomapet.com

Organizing Committee

-  Irène Buvat
irene.buvat@curie.fr
-  Anne-Ségolène Cottureau
annesegolene.cottureau@aphp.fr
-  Carsten Kobe
carsten.kobe@uk-koeln.de
-  Stefano Luminari
sluminari@unimore.it
-  Catherine Thieblemont
catherine.thieblemont@aphp.fr
-  Josee Zijlstra
j.zijlstra@amsterdamumc.nl

Agenda

Friday, September 17

07:30

Poster set-up

08:30 - 10:00

Session I: Myeloma (1h30)

Chair: F. Bodere (Nantes, FR), C. Nanni (Bologna, IT), E. Zamagni (Bologna, IT)

Invited lectures

- PET in the era of immunotherapies for multiple myeloma: from anti-CD38 antibodies to CAR-T cells and bispecific antibodies—prognostic value of PET and complementarity with other assessment methods – E. Zamagni (Bologna, IT)
- PET/MR imaging in patients treated with CAR-T cells and bispecific antibodies – B. Jamet (Nantes, FR)
- Preliminary insights into LAFOV PET in multiple myeloma – C. Nanni (Bologna, IT)

Early-career investigators (selected abstracts)

Discussion

10:00 - 10:30

Coffee break / poster walking

10:30 - 11:30

Session II: Theranostics and novel radiopharmaceuticals in haematology (1h)

Invited lectures

- Innovative radiopharmaceuticals in hematology: CXCR4 PET - C. Lapa (Augsburg, DE)
- Twenty years after radioimmunotherapy: can theranostics transform haematology as it has prostate cancer - M. Hofman (Melbourne, AU)

Early-career investigators (selected abstracts)

Agenda

Friday, September 17

11:30 - 12:30

Session III: PET evaluation in the era of new immunotherapies (CART / bispecifics) (1h)

Invited lectures

- Clinical Cases: Response to CAR-T and bispecific therapies – pitfalls and challenges - L. Vercellino (Paris, FR)
- Metabolic evaluation during T-cell engaging immunotherapy - M. Hutchings (Copenhagen, DK)

Early-career investigators (selected abstracts)

12:30 - 14:00

Lunch / poster walking

14:00 - 16:00

Session IV: Towards a new era of PET: Total-body imaging and AI applications in haematology (2h)

Invited lectures

- From the first FDG PET to total body PET/CT: transformational technology for imaging in haematology - M. Hofman (Melbourne, AU)
- Impact of total body PET on interpretation criteria - A. Loft (Copenhagen, DK)
- AI-assisted PET response assessment: automated Deauville scoring and longitudinal comparison - N. Shahamiri (Essen, DE), K. Hermann (Essen, DE)
- AI-based PET segmentation and registration - L. Sundar (Munich, DE)
- AI-based lymphoma phenotyping at lesion and patient levels: integrating imaging and pathology - S. Chauvie (Cuneo, IT)

Early-career investigators (selected abstracts)

16:00 - 16:30

Coffee break / poster walking

Agenda

Friday, September 17

16:30 - 16:45

Alberto Biggi best poster award (15 min)

Chair: U. Duhrsen (Essen, DE), T. Vander Borgh (Louvain, BE), L. Kostakoglu (New York, US), A. Versari (Bologna, IT)

- BEST POSTER: 8 min presentation by the author

16:45 - 18:30

Session V: Clinical trials (1h45)

- CARMOD - F.X. Gros (Bordeaux, FR)
- IELSG44 - E. Zucca (Bellinzona, CH)
- Randomized GITIL/FIL HD0607 - long term results - A. Gallamini (Nice, FR)
- RAFTING - A. Gallamini (Nice, FR), J. Zaucha (Gdańsk, PL), K. Filonenko (Gdańsk, PL)
- FOLL 19 - S. Luminari (Reggio Emilia, IT)
- US trials - H. Schöder (New York City, US)
- PETReA FL - Kim Linton (Manchester UK)
- GHSG - P. Borchmann (Cologne, DE)
- GATLA - Speaker TBC

19:30

Conference dinner for all attendees

Agenda

Saturday, September 18

08:30 - 10:00

Session VI: Expert session: harmonizing PET reports in lymphoma and myeloma - key data to include. (1h30)

10:00 - 10:30

Coffee break / poster walking

10:30 - 12:00

Session VII: Interim PET (1h30)

- Debate: Interim PET in LBCL patients: essential tool or overused asset?
Yes - C. Thieblemont (Paris, FR)
No - A. Davies (Leeds, UK)
- IPTCL - N. Schmitz (Hamburg, DE) and A. Ferreri (Milan, IT)
- HL - J. Ferdinandus (Cologne, DE)

Agenda

Saturday, September 18

12:00 - 13:15

Session VIII: Combined strategies involving ctDNA and PET (1h15)

Chair: C. Pott (Dortmund, DE)

- C. Pott (Dortmund, DE)
- HL - S. Borchmann (Cologne, DE)
- LBCL: PET baseline and ctDNA for response assessment, phase 3 STARGLO trial - C. Herbaux (Montpellier, FR)
- PMBL - V. Camus (Rouen, FR)
- FL - Marco Ladetto (Alessandria, IT)

13:15

Farewell Cocktail & Boxed Lunch
